

# ADDITIONAL ONLINE KISH FILE 1

## CATALOGUE OF THE FINDS BY CONTEXT

In the following catalogue the stratified finds from non-funerary contexts excavated in the Y, YW and YWN soundings and the Z trenches are listed. The tables are organized according to a hierarchical system starting from the excavation area, followed by the archaeological/structural phase, and finally the object class or the sector. Information about each artifact include the identification number (excavation number, museum number and new number), the precise find-spot (usually the elevation), the type of objects, the reference (when already published) and the plate. With regards to the reference in order to make the reading of the tables easier, the following publications have been shortened as follows: Algaze 1983-84 = Algaze; Amiet 1980 = Amiet; Basmachi 1994 = Basmachi; Buchanan 1966 = Seal; Langdon 1930 = JRAS; Gelb, Steinkeller and Whiting 1991 = OIP 104; Englund and Grégoire 1991 = MSVO; Moorey 1978: Microfiche 2 = Kish; Watelin and Langdon 1934 = EK IV; Field Museum online database = FIELD.org; Gelb 1970 = MAD V; Grégoire 1996 = AAICAB; Westenholz 2014 = CUSAS; Westenholz 2017/18 = NABU. When no reference is given, information have been collected from the unpublished cards. “Cat.” refers to Appendix 1 catalogue.

### Y SOUNDING PHASE 1a

#### Pottery
